PROFESSIONAL EXPERIENCE

Shopify Developer

Excelsior Group SRL, Italy

October 2023 – February 2025 – 1 year 5 months

- Developed customized e-commerce solutions by creating and personalizing Shopify themes using Liquid.
- Optimized online storefronts to enhance user experience and platform performance.
- Collaborated with cross-functional teams to drive improvements and boost overall sales efficiency.

Full Stack Developer

Impero Soft SRLS, Genoa, Italy

September 2023 – October 2023 – 2 month

- Designed, developed, and maintained microservice-based applications using modern architectural principles.
- Utilized Docker and Java Spring Boot to build and deploy scalable backend systems.
- Implemented agile methodologies to optimize development and deployment strategies.

UI Developer

Linfa SRL, Imperia, Italy

June 2022 – September 2022 – 4 months

- Collaborated on a thesis project with a leading distribution company, leveraging the .NET framework to create an advanced asset search solution.
- Streamlined workflows by integrating software solutions across multiple departments.
- Enhanced problem-solving and cross-functional communication skills in a corporate environment.

PROJECTS

BloomTicket — Mobile App (iOS & Android)
Co-founder · Mobile Lead Developer – 2023 – Present

Co-founded BloomTicket, a full event ticketing ecosystem live on App Store and Google Play. Independently built the consumer-facing cross-platform mobile app end-to-end.

- iOS + Android app in production
- Laravel backend integration: REST APIs, Stripe payments, Firebase push notifications, Apple/Google social login
- State management: Redux Toolkit · Animations: React Native Reanimated · UI: NativeWind
- Contributed to QR code check-in system design for event access control
